

## ICT Acceptable Use Agreement 2017

(Years 3-6)

*Information and Communication Technology (ICT) includes the use of computers, the school network, the Internet, digital/video cameras and scanners.*

*At Tapping Primary School computers are used to enhance teaching and learning in several ways: for communicating with other people, for publishing students' work, for research and learning basic skills.*

Dear Parents/Carers,

In an effort to develop in our students a responsible attitude when using computers and other electronic equipment, an agreement outlining some basic rules has been created. This agreement is a promise to behave courteously, cooperatively and appropriately in all situations when using electronic equipment.

Teachers will discuss the rules outlined but we would appreciate your support in discussing them further with your child. Students and parents may sign the agreement then return it to school to be signed by the teacher. Students will be permitted to use computers in the school once this agreement has been signed and returned to the school.

(Note: while every reasonable effort is made by schools and the Department of Education and Training to prevent student exposure to inappropriate online content when using the Department's Online Services, it is not possible to completely eliminate the risk of such exposure. The Department cannot filter Internet content accessed by your child from home or from other locations away from school. The Department recommends the use of appropriate Internet filtering software.)

Thank you for your cooperation.  
Mr Bill Boylan (Principal)  
Mrs Susan Mallett (Deputy Principal ICT)
